

Notice of Rate Change as of 10/1/2026

Tombigbee Electric Power Association strives to be a good steward of its members money and does not take any thought of a rate increase lightly. Tombigbee purchases 100% of its wholesale power from the Tennessee Valley Authority "TVA." Over the last year, Tombigbee purchased \$104,489,290 of electricity from TVA. Our electric sales to you our members amounted to \$140,098,410 for the same period. What that means is that Tombigbee operates on about twenty-four cents out of each dollar it bills.

As with each of you, Tombigbee has faced rising costs in bringing service to you over the last several years. Pricing on poles, equipment, materials and supplies utilized to bring you electricity have all increased. Accordingly, Tombigbee has no choice but to implement a rate increase of one and a half percent this year (1.5%). Nothing about this rate increase relates to Tombigbee's fiber infrastructure or the operation of Tombigbee Fiber, LLC, which has proven to be a success and is paying for itself.

This rate increase does not account for any other rate increases that TVA is itself making. Tombigbee simply passes that cost on to you. Tombigbee does not have any control over the TVA rate, any credits offered by it or the TVA fuel cost adjustment. Tombigbee does its best to maintain stable rates. Tombigbee is one of the least expensive TVA cooperatives in the State of Mississippi and one of lowest in the entire Tennessee Valley.

Tombigbee's historic rate increases for the last ten (10) years are set out below:

- 10/01/18 – 1.51%
- 10/01/22 – 0.5%
- 10/01/23 – 4.0%
- 10/01/24 – 1.5%
- 10/01/25 – 2.0%
- 10/01/26 – 1.5%
